Cut yarn and run the tail through the 6 sc sts. Weave in the ends.

Carve out the shape of the pepper. To do this, wrap the yarn around the pepper twice to create 4 segments.

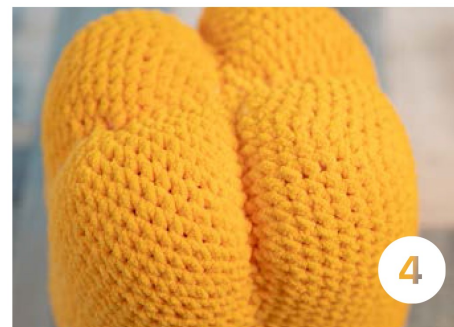

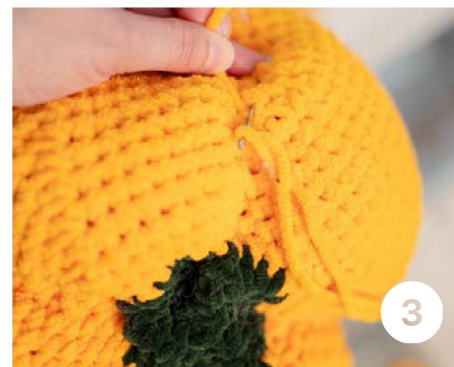

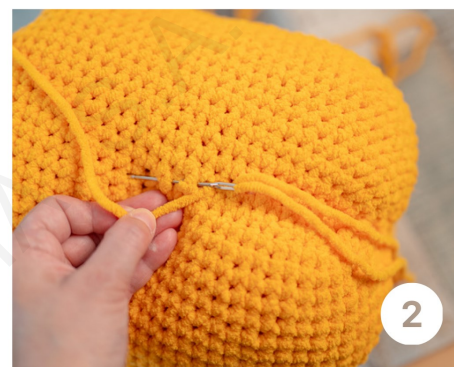

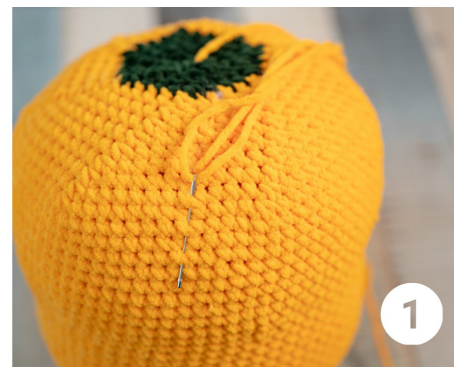

Work as follows:

Work around the pepper once through each round using backstitch (see images 1 and 2).

Tighten the thread every 10 cm (see image 3) in order to form the shape and to prevent the thread from breaking.

Work around the pepper again in the same way, offset by 90 degrees. This divides the pepper into 4 equal segments (see image 4).

Repeat the process one more time to stabilize the shape. This way, the mold will hold securely even when cuddled.

Finishes

Using markers, place the right side of the base on the wrong side of the shell, matching up the increases. Place the six pieces: head, legs and tail, in their corresponding places.

Seam the base to the shell, inserting the tapestry needle only into the front loop of the stitches from R25 (Large turtle cushion) or R20 (Small turtle cushion).

When you get to the legs and tail, first sew these pieces on the wrong side of the base, making sure the increases are centered on them.

Continue seaming the base to the shell by inserting the tapestry needle through the already-sewn-on pieces.

In the case of the head, only sew the bottom of it to the base, leaving a long tail to finish sewing with later. Continue seaming the base to the shell along this section leaving the rest of the head stitches on hold.

Stuff the cushion before you finish seaming. Cut and weave in the ends.

Return to the head and place it on the shell. Seam around all the head stitches that were left on hold.

Embroider some cheeks under the eyes with Katia United Cotton color 29 (orange).

With Katia United Cotton color 31 (pistachio), embroider 4 (Large turtle cushion) or 3 (Small turtle cushion) vertical lines of different heights as flower stems with chain stitch on one side of the shell.

Also embroider a couple of leaves on each stem using chain stitch.

Sew the flowers onto the top of the stems: 1 large and 3 small flowers for the large cushion, and 1 large and 2 small flowers for the small cushion.

R19: (sc17, inc1) x5. [95 sts]

R20: (sc18, inc1) x5. [100 sts]

Sl st to join.

Continue working the first of the 5 star points.

Points of star (x10):

Each body piece has 5 points; the base of the point spans 20 stitches from increase to increase.

The star points are worked flat, working ch1 and turning the work at the end of each row.

Start the first point directly on the body, without cutting the yarn, making the first sc in the first st where the joining sl st is.

The other points are worked by joining new yarn to the first st next to the base of the previous point.

With Katia Bambi color 329 (yellow)

R1: sc1 into each st, ch 1, turn the work. [20 sts]

R2-R19 (18 rs): sk 1 st, sc1 into each st, ch 1, turn the work. [19-2 sts]

R20: sk 1 st, sc1 [1 st]

Cut yarn, pull through, and weave in the ends.

Joining strip (x1):

With Katia Bambi color 329 (yellow)

R1: ch217, starting in the 3rd ch from the hook: hdc1 into each st, ch 2, turn the work. [215 sts]

R2: hdc1 into each st, ch 2, turn the work. [215 sts]

R3: hdc1 into each st. [215 sts]

Cut yarn leaving a long tail to sew with later. Weave in the starting tail.

Finishes

Place the joining strip facing one of the stars and sc1 into each st through both parts along the perimeter as follows: (sc20 along the side of the point, sc2 in

the vertex st, sc20 along the other side of the point, sc1 in the join between both points) x5. Cut yarn and weave in end.

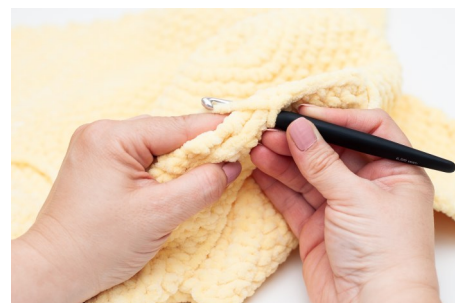

Note: The 2 sc sts at the vertex are not an increase, they are made by first going into 1 st from the strip and the vertex st on the point and working the first sc. Next, insert the crochet hook through the next st on the strip and through the same vertex st on the point, and work the second sc.

Sew to join the ends of the joining strip, cut yarn and weave in end.

Place the other edge of the strip facing the other star and join in the same manner. Stuff before joining completely. Cut yarn and weave in end.

Notes

Keep in mind that if you use a different yarn weight or hook size than the one described, the end result may be different to the original design. If you use a larger hook size, it is also possible that you may run out of yarn.

When the pattern tells you to change color, make this change in the last stitch of the previous round.

This is a seamless design, so all the parts of the amigurumi are crocheted directly onto the body.

Keep in mind that children under 3 may only play with toys with safety eyes under adult supervision.

Instructions

Head (x1)

Start with Katia Big Bambi color 101 (beige)

Place safety eyes between R9 and R10 with approximately 12 sts between them. Stuff the beak and head firmly.

R16: dec6. [6 sts]

Do not cut yarn. Continue working the body (R17).

R32-R34 (3 rs): sc30. [30 sts]

R35: (sc3, dec1) x 6. [24 sts]

Place a marker on the following round. You will work the tail around this round later.

R36: (sc2, dec1) x 6. [18 sts]

R37: (sc1, dec1) x 6. [12 sts]

Stuff the body firmly.

R38: dec6. [6 sts]

Cut yarn, leaving a long tail to sew with later.

If necessary, stuff the body a bit more. With the tapestry needle, pull yarn through all the sts and pull tight. This closes the body firmly. Weave in the ends.

Wings (x2):

The wings are worked directly onto the body. So the wings turn out nice and straight, marking out the wings with a marker is recommended. Determine the center of round 23 (in relation to the head). Count 5 stitches to the left and place a marker. Determine the center of round 23 again and count 5 stitches to the right and place another marker. Work with Katia big Bambi color 100 (white).

R1: Work between rounds 23 and 30. Pull a loop out of the stitch where the marker is. From the marker, sc7 into the body.

Sc1 to the right of the corner.

Sc7 again.

Sc1 to the right of the corner again.

(See photo, in it this round is worked in a different color for more clarity, but it should be worked in color 100 (white).)

At the end of R1, you have worked 16 sc sts into the body of the duck. This forms the base of the wing.

R2-R6 (5 rs): sc16. [16 sts]

R7: (dec1, sc6) x 2. [14 sts]

R8: sc14. [14 sts]

R9: (dec1, sc5) x 2. [12 sts]

R10: sc12. [12 sts]

R11: (sc2, dec1) x 3. [9 sts]

R12: (sc1, dec1) x 3. [6 sts]

Do NOT stuff wing. Thread tapestry needle with the end and run it through all the single crochet stitches to close. Weave in the ends. Repeat on the other side of the body.

Tail (x1)

The tail is worked directly onto the body, just like the wings. Work with color 100 (white).

R1: Work the tail onto the body around R36, toward the left.

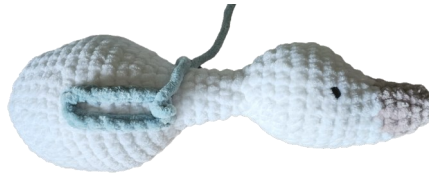

Sc18.

(See photo, in it this round is worked in a different color for more clarity, but it should be worked in color 100 (white)).

R2-R6 (5 rs): sc18. [18 sts]

Do NOT stuff tail. Fold in half and make sure that the tail is straight with regards to the body. If not, add or remove a few single crochet stitches so that it lines up.

Close the tail as follows (work into both single crochet stitches): sc1, dc2 into next sc, sc2, dc2 into next sc, sc2, dc2 into next sc, sc1. [12 sts] Cut yarn and weave in ends.

Legs (x2):

The legs are also worked directly onto the body. So the legs turn out nice and straight, marking out both legs with a marker is recommended. (See photo)

Work with Katia big Bambi color 100 (white).

R1: The legs are worked in the round onto R34-36 of the body. Leave approximately 4 sc sts between both legs.

Sc6 toward the left around the body.

(See photo, in it this round is worked in a different color for more clarity, but it should be worked in color 100 (white)).

R2: (sc1, inc1) x 3. [9 sts]

R7: sc15. [15 sts]

Do NOT stuff legs. Fold in half and make sure that the leg is straight with regards to the body and tail. If not, add or remove a few single crochet stitches so that it lines up. Close the leg by sc8 through both single crochet stitches. Repeat for the other leg.
