Mediterranean COLLECTION

Llega el verano, y con él, esa sensación de relajación y tranquilidad. Y este año en Katia Fabrics también han llegado las ganas de Mediterráneo.

El Mediterráneo, que tantas veces ha servido como inspiración para grandes artistas, en el mundo de la moda se caracteriza por ese aire atemporal y desenfadado que transmiten sus prendas, esos esenciales que perdurarán en nuestro armario verano tras verano. Por ello, en Katia Fabrics queremos descubrirte las claves que nos han inspirado de nuestro querido Mediterráneo en su mejor versión. Rayas y motivos marineros, blanco y bordado, vestidos cómodos con tejidos frescos y ligeros. Dibujos y patrones para que, estés donde estés, sientas el sol en la cara y los pies en la arena...

Mediterráneo es mar... pero sobre todo significa “tierra en mitad del mar”. Esta tierra se caracteriza por su naturaleza y los frutos y flores que nos brinda. Es por ello por lo que nuestros estampados no sólo hablan del mar, sino de cerezas e higos, limones y girasoles conviviendo con amapolas y cerezos, margaritas y lavandas.

Finalmente, Mediterráneo también es vida sana y este verano no podíamos obviar la tendencia “sport arty”. Así que, aprovechando que hemos introducido artículos técnicos para los que les gusta vestir este estilo, encontraréis tejidos y estampados para deportistas con un toque urbano muy gráfico.

¡Déjate llevar por esta estación del año tan especial y por la influencia de este destino de ensueño de la mano de Katia Fabrics!

Las telas de la revista Katia Fabrics están diseñadas por el equipo de Katia Fabrics.

Summer is here, and with it, that feeling of relaxation and peace. And this year, here at Katia Fabrics, the desire for the Mediterranean has also arrived.

The Mediterranean, which has so many times served as inspiration for great artists, is characterized in the world of fashion by that timeless and carefree spirit that the garments transmit, those essential items that will stay in our wardrobe summer after summer. For this reason, at Katia Fabrics we want to reveal to you the key points that have inspired us from our beloved Mediterranean in its best version. Stripes and sailor motifs, white and embroidery, comfortable dresses with cool and lightweight fabrics. Designs and patterns to make you feel the sun on your face and the sand on your feet wherever you are.

Mediterranean is the sea... but above all, it means “land in the middle of the sea”. This land is characterized by its natural beauty and the fruits and flowers it offers us. That is why our prints speak not only of the sea, but of cherries and figs, lemons and sunflowers coexisting with poppies and cherry trees and daisies and lavender.

Finally, Mediterranean is also a healthy life, and this summer we cannot forget the “sport arty” trend. So, taking advantage of the fact that we have introduced technical items for those who like to wear a sporty look, you can find fabrics and prints for athletes with a very graphic urban touch.

Let yourself get carried away by this very special season of the year and by the influence of this dream destination at the hands of Katia Fabrics!

The prints in the Katia Fabrics magazine are designed by the Katia Fabrics team.
